

ADS Cheat Card 1

The Views at a Glance

Tier 1: Architectural Views (Section 3)

#	View	What it describes	Primary audience
3.1	Logical View	Components, services, patterns — <i>what the solution is</i>	Architects, Developers
3.2	Integration & Data Flow	Data flows, APIs, integrations — <i>how components talk</i>	Integrators, Architects
3.3	Physical View	Hosting, compute, networking, environments — <i>where it runs</i>	Infrastructure, DevOps
3.4	Data View	Data stores, classification, retention — <i>what data it holds</i>	Data Architects, Compliance
3.5	Security View	IAM, encryption, monitoring, threats — <i>how it's protected</i>	Security, CISO, Compliance
3.6	Scenarios	Use cases, ADRs — <i>how it behaves and why</i>	All stakeholders

Remember: No single view tells the full story. Together, they answer every reasonable question from any reasonable reviewer.
